032604

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

17510 U.S. PTO
10/809669
032604

Applicants: Victor Samarov, Eugene Kratt, Dmitry Seliverstov, Roman Haykin, Evgeny Khomyakov, Igor Troitski.

For: Patent Application: Method and System for Manufacturing of Complex Shape Parts from Powder Materials by Hot Isostatic Pressing with Controlled Pressure Inside the Tooling and Providing the Shape of the Part by Multi-Layer Inserts

INFORMATION DISCLOSURE STATEMENT

Assistant Commissioner for Patents
P.O. Box 1450
Alexandria, VA. 22313-1450

Dear Sir:

Enclosed Are:

1. A written document, which comprises a specification (description and claims).
2. Drawings and their Description.
3. Form PTO-1449 listing references.
4. Declarations – USA Patent Application
5. Statement Claiming Small Entity Status – Independent inventor.
6. Disclosure Document Deposit Request.
7. Verified Statement (Declaration) claiming small entity status independent inventor
8. The Filing fee: \$385 (check # 1025)
9. Post card.

Date:

03/23/04

Respectfully submitted,

By:

Troitski

Igor Troitski, customer number 35662

Disclosure Document Deposit Request

Mail to: P.O. Box 1450
Assistant Commission for Patents
Alexandria, VA. 22313-1450

Inventor(s): V. Samarov, E. Kratt, D. Seliverstov, R. Haykin, E. Khomyakov, I. Troitski
Title of Invention: Method and system for manufacturing of complex shape parts from
powder materias by hot isostatic pressing with controlled pressure inside the tooling and providing the shape
Enclosed is a disclosure of the above-titled invention consisting of 12 sheets of description and
5 sheets of drawings. A check or money order in the amount of \$ 385 is enclosed to
cover the fee (37 CFR 1.21(c)).

The undersigned, being a named inventor of the disclosed invention, requests that the enclosed papers be
accepted under the Disclosure Document Program, and that they be preserved for a period of two years.

NOTICE TO INVENTORS

It should be clearly understood that a Disclosure Document is not a patent application, nor will its receipt date in any way become the effective filing date of a later filed patent application. A Disclosure Document may be relied upon only as evidence of conception of an invention and a patent application should be diligently filed if patent protection is desired.

Your Disclosure Document will be retained for two years after the date it was received by the Patent and Trademark Office (PTO) and will be destroyed thereafter unless it is referred to in a related patent application filed within the two-year period. The Disclosure Document may be referred to by way of a letter of transmittal in a new patent application or by a separate letter filed in a pending application. Unless it is desired to have the PTO retain the Disclosure Document beyond the two-year period, it is not required that it be referred to in the patent application.

The two-year retention period should not be considered to be a "grace period" during which the inventor can wait to file his/her patent application without possible loss of benefits. It must be recognized that in establishing priority of invention an affidavit or testimony referring to a Disclosure Document must usually also establish diligence in completing the invention or in filing the patent application since the filing of the Disclosure Document.

If you are not familiar with what is considered to be "diligence in completing the invention" or "reduction to practice" under the patent law or if you have other questions about patent matters, you are advised to consult with an attorney or agent registered to practice before the PTO. The publication, *Attorneys and Agents Registered to Practice Before the United States Patent and Trademark Office*, is available from the Superintendent of Documents, Washington, DC 20402. Patent attorneys and agents are also listed in the telephone directory of most major cities. Also, many large cities have associations of patent attorneys which may be consulted.

You are also reminded that any public use or sale in the United States or publication of your invention anywhere in the world more than one year prior to the filing of a patent application on that invention will prohibit the granting of a patent on it.

Disclosures of inventions which have been understood and witnessed by persons and/or notarized are other examples of evidence which may also be used to establish priority.

There is a nationwide network of Patent and Trademark Depository Libraries (PTDLs), which have collections of patents and patent-related reference materials available to the public, including automated access to PTO databases. Publications such as *General Information Concerning Patents* are available at the PTDLs, as well as the PTO's Web site at www.uspto.gov. To find out the location of the PTDL closest to you, please consult the complete listing of all PTDLs that appears on the PTO's Web site or in every issue of the Official Gazette, or call the PTO's General Information Services at 800-PTO-9199 (800-788-9199) or 703-308-HELP (703-308-4357). To ensure assistance from a PTDL staff member, you may wish to contact a PTDL prior to visiting to learn about its collections, services, and hours.
